25X1

[redacted] an order of the Industrial Ministry,
pertaining to the execution of the five-year Plan for Mining, Metallurgy, and Power
Supply [redacted]

[redacted] calls for an expansion of production facilities and capacities and
lists the industrial plants to be given preferred consideration under the program.
These plants are to produce

- a) Electrical and engine-driven equipment
- b) Metallurgical, mining, and fuel-producing equipment
- c) Lifting and conveying equipment
- d) Electrical equipment

High priority plants of the machine tool and ball bearings industry are also
listed.

Changes in the administration, operation, and production of certain plants are
outlined, such changes to become effective, upon approval by the Ministry for Planning,
on or before 15 September 1950.

25X1

The pertinent responsibilities of the Minister for Trade (Intra-German and Foreign)
and Supply, of the Traffic and Finance Ministers, and of the Minister-President of
the Laender, are defined, and the financial arrangements for implementing the program
are discussed.
